

ASSIGNMENT SUBMISSION ON SUBMITTY – HELLO WORLD ASSIGNMENT.

We are going to use [Submitty](#) for assignment submission in [CS2014](#).

The steps to submit an assignment in the platform are:

1. Log in with your username and password on our [Submitty instance](#) (Fig. 1).

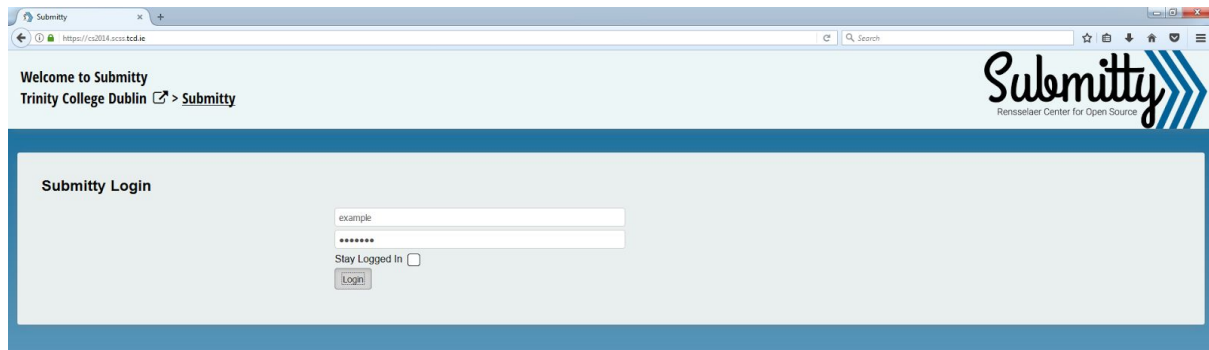

Figure 1 Submitty Login

2. You will see your personal information and the course “f17 cs2014 cs2014” (Fig. 2). Click on the course to proceed with the submission. You can alternatively change your password in the section “About You”.

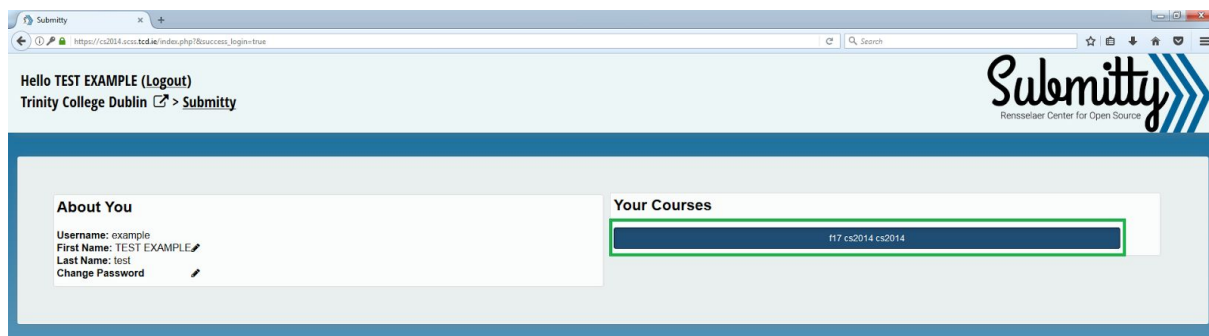

Figure 2 Submitty Main Page

3. Now you will see the list of opened assignments, assignment zero by now. Click on “Submit”/“Resubmit” to proceed. The list of opened assignments will be updated through the term.

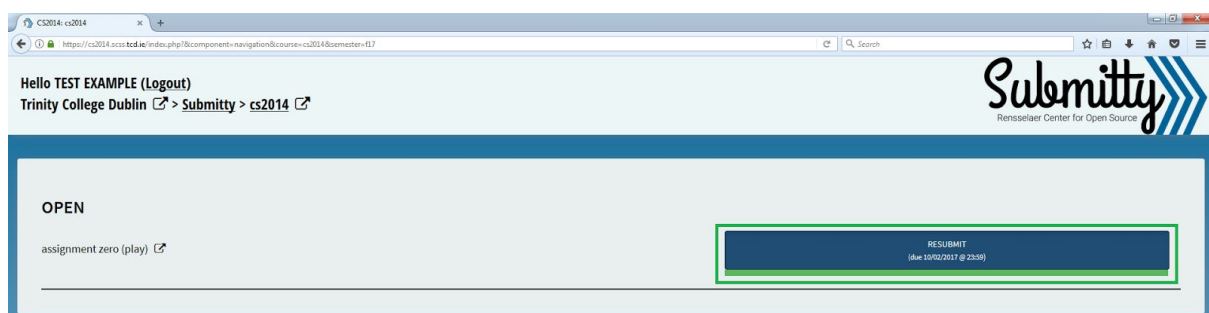

Figure 3 List of Opened Assignments

- You will see a dotted space where you can drag your assignment, alternatively, you can click on it to open a file browser. You can find the code for hello world [here](#). You must always upload your code file with extension .c

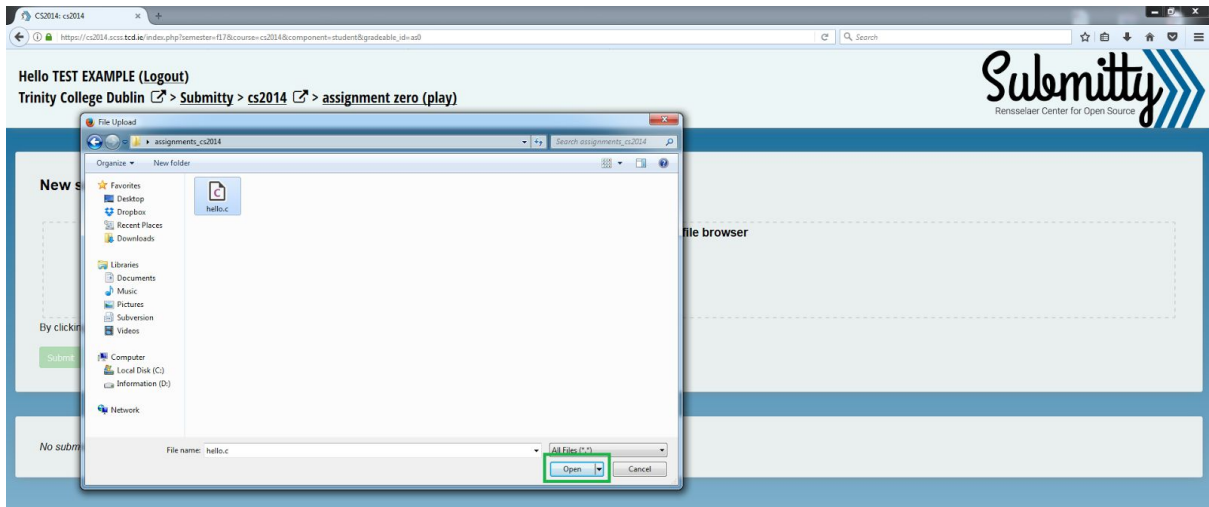

Figure 4 Assignment Upload

- Once you uploaded the assignment, click on “Submit”.

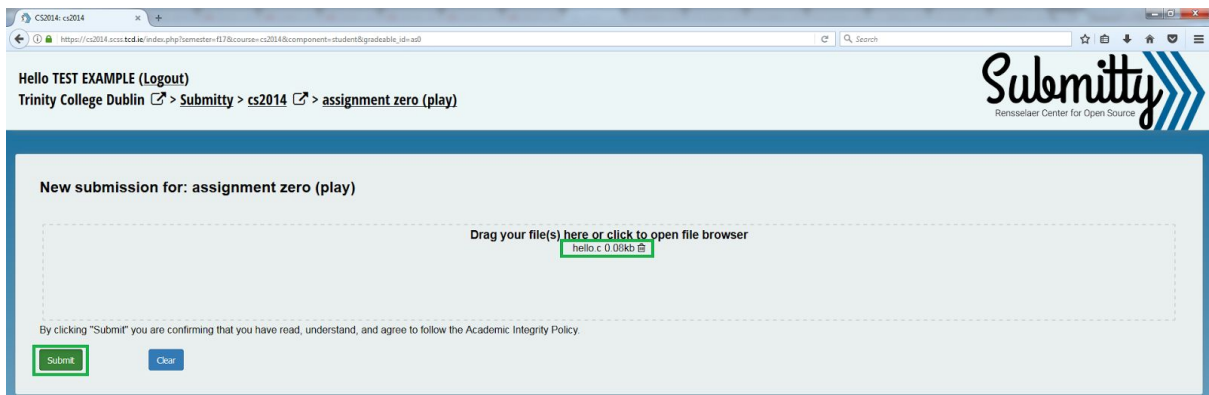

Figure 5 Assignment Submission

- You should see the output of your assignment after a while. It includes the submission details and the results for compilation, and test cases.
